Align it, Transfer it, Sort it, Switch it - you name it!

Multi-Conveyor is now licensed and certified.

Six new videos show Multi-Conveyors licensed and certified Activated Roller Belt technology (by *Intralox*®). Using modular plastic belting to complex package handling processes like sorting, merging, and aligning, the result is a simplified, cost-effective solution for product orientation and control. Super cool videos! ([see them all here!](#))

Guiderails and more Guiderails

Multi-Conveyor actually has over 40 different varieties, sizes, lengths and widths of guideways to accommodate your needs. From standard UHMW/Stainless or aluminum, sanitary and washdown to custom configurations, in adjustable or fixed widths. Case Elevators and Lowerators

Tackling [material handling challenges](#) are Multi-Conveyor elevators and lowerators. Our systems can take hold of a box, case or other product, move it up and over, then deposit onto a conveyor--just the way you want it. Vertical lifts are often requested for our elevated designs. Adjustments are a breeze, adapting to your facility production needs. Whether the system is... [\(finish article here\)](#)

Mini-Gripper anyone?

[Video shows](#) it how the Mini-Gripper has a smaller profile than normal grippers, fitting into a smaller envelope, saving floor space. Mini-grippers can grab, elevate and rotate products from 0-11" with the most gentle handling so even extremely fragile packages are secure and move without damage in transport. [View now.](#)

Multi-Conveyor Receives ACUITY Safety Achievement Award

Multi-Conveyor LLC was presented with the [ACUITY Safety Award](#) for businesses that exemplify the partnership with **ACUITY** that helps ensure a safe work place. Less than 5% of **ACUITY** customers will ever achieve this recognition. The attention paid to our safety program has allowed Multi-Conveyor to attain an 8-year record over one million hours without a lost time accident - which in turns keeps our good record of on-time deliveries.
