Let's explain.

Flat friction-top conveyor belt systems provide the additional "grippage" (*if you will*) that may be necessary to move lightweight products on mid- to high-speed production lines that have an upstream, inclining flow.

Used in many "soft drop" applications, these low-maintenance systems provide ([click here to finish full article](#))

Find us, Follow us, Like us!

Multi-Conveyor knows that our customers use every media available to find the latest in conveyor equipment and technology. Although still populating some of our social media circles and in-process of completing new, informative video footage, we invite you to watch for us, Follow us! and Like us! soon on these channels.

Pack Expo Las Vegas - September 23-25: **Booth #2429**

If your product is in this cart, there's a good chance we helped it get there.

How's that, you ask? No matter if your company produces dairy products, fresh or frozen foods, canned or bottled goods, even household supplies or OTC's, our solutions may be the key to ensure your packages are moving - on time. Bottom line, we make sure your best is conveyed better. [Visit our products here...](#)

Thanks for stopping by.

We would like to thank all of our customers and new business associates that came by the Multi-Conveyor booth at the recent Converting Influence Expo at Lambeau Field in Green Bay on March 7th. Besides showcasing our latest designs for non-wovens, paper and print conveying, these events are excellent avenues to exchange ideas and industry trends with our colleagues and customers. Your feedback is important to us and we welcome suggestions on how we can make our products even better with your input. [E-mail us today](#) and let us know how we can help you with your next project.

A wee bit o' Success for ya thar Laddies and Lassies!

Our "Success Line", quick-ship conveyors are our signature in standard conveyor systems. By using modular pre-engineered components, we reduce the overall production time so these conveyors can be ready in just about one week. Benefits of the Success series from Multi-Conveyor include very attractive pricing while maintaining superior quality but realizing expedited delivery. [Contact us](#) and we'll see if our Success Line is the answer to your quick conveyor needs!
