MULTI-CONVEYOR, LLC
YOUR BEST, CONVEYED BETTER

Call for a quote: **800.236.7960**

Super Sanitary Dual Feed Cheese Conveyor with "Traffic Cop" Clamp

Easy to clean and precision timing!

This super sanitary construction stainless steel conveyor features a tight radius slave driven transfer for raw or packaged dairy/cheese products. It features fully welded stainless steel frame construction and removable wearstrips for easy cleaning.

This system feeds two conveyors of wrapped cheese combining into one line at 90° simultaneously without product collision. The primary line has continuous movement while the secondary is stopped with a clamp intermittently so both lines flow with precision.

The 2:1 traffic cop pneumatic clamps include stainless steel air cylinders and safety guarding. Electrical controls include NEMA 4X Slope Top enclosures.

To learn about all of our conveying solutions, visit the Multi-Conveyor website to find out how we can help with concept, design and engineering, controls and integration, support, installation assistance and much more.

Plus, Multi-Conveyor has a complete video library of recently manufactured systems for most any industry.

Then, call us at **1-800-236-7960** and we'll make sure your products get moving in the right direction.

UPCOMING EVENTS:

Plan to visit Multi-Conveyor at The Int'l Cheese Technology Expo
April 22-24, 2014 - Milwaukee WI
- USA

We are pleased to announce that Mr. Jim Paulsen, a 30 year veteran in the conveyor industry has joined Multi-Conveyor's Account Management team. As a highly regarded applications engineer, Mr. Paulsen has a keen sense and ability to identify value-based solutions for his customers. He has handled all aspects of ... [\(read on...\)](#)

Why choose Multi-Conveyor?

MULTI-CONVEYOR designs and builds custom conveyors and related devices. We are a leader in the industry for what we do. That is not an opinion or a debate, it's simply a fact.

Our company motto is appropriately stated, "Your best, conveyed better." We strive earnestly to achieve that goal through a process of continuous innovation. We have moved to a position of leadership in the industry because [\(... read on\)](#)

NEW Quality in Manufacturing Video

Quality is never assumed at Multi-Conveyor, it is demanded. A forty-eight (48) point check list is used to monitor every item shipped from the production floor. Each weld is inspected, each bolt is re-examined, until final safety stickers are put on drive guards.

All material handling projects are assigned to experienced Project Managers to oversee each job from start to finish with the personal attention you deserve. Our project management scope includes: [\(...read on\)](#)
