## What does Multi-Conveyor go through to make sure your system is truly USDA Dairy or USDA compliant?

*This may surprise you.*

The fact is Multi-Conveyor has been making super [sanitary](#), washdown, [stainless steel](#), USDA recognized machinery for years. However, we've recently updated our checkpoints to comply with the most strict and ever changing mandates as set forth by the [USDA Dairy Guidelines](#).

Although all of the updates are far too many to mention, critical points did include:

- √ Removable NTR components for cleaning.
- √ Gasketed areas to keep contaminants from getting behind wear strips.
- √ Critical radius welds and radius bushings.
- √ Toolless removable CIP's (clean in place).
- √ USDA approved urethane belts for tight transfers.
- √ Plastic washers behind all fasteners.

There *is* a difference between USDA and USDA Dairy mandates. [Multi-Conveyor](#) can assure you that we will stay current and compliant with these ever changing specifications on your behalf.

You can view many of our [sanitary system videos here](#).

## Moving Pharmaceuticals? We can help.

This recently built serpentine is a first-in, first-out accumulator that is utilized to keep the filler / puck inserter producing products when the production line experiences an equipment failure or stoppage downstream.

Production is permitted to continue and the filled products are then allowed to accumulate on the serpentine table while the delay downstream is cleared.

The pucks in this application can transport vials, pens, or tubes of pharmaceutical products. Very cool.

## Plan ahead and get your FREE passes to Pack Expo, compliments of Multi-Conveyor.

Pack Expo International (now co-located with Pharma Expo) will be here before you know it. That's why we're pleased to provide you with a free pass to the show!

[Click on this link to registration.](#) When prompted (towards the end of the registration process) you will be asked if you have a COMP code. That's where you will enter: **96M88**

Then, [map your trip](#) and make sure to visit Multi-Conveyor in **Booth S-3414**. We'll be watching for you!

*(Please e-mail [marketing@multi-conv.com](mailto:marketing@multi-conv.com) if you have any trouble using our free pass code for registration. We'll get you handled.)*
