Parallel Transfers and Side Table Accumulators

Seven stainless steel conveyors built for a very large pharmaceutical operation.

conveyed better.

[Multi-Conveyor](#) recently fulfilled a request for seven different stainless steel conveyors for a large pharmaceutical operation.

The customer will be moving several sizes of small diameter glass vials through parallel transfers and side table accumulators. [Accumulation](#) side tables are perfect when a project can't handle a surge of product, but can progressively accumulate product being fed in at a single feed rate.

The [video](#) shows several capabilities including a single lane chain to belt accumulation table then back to single chain again. The bottles then flow through the accumulated belt back onto the chain to show you a flawless transfer for continuous movement.

Adjustable UHMW stainless steel [guide rails](#) are moved either wider or narrower based on the company's vial diameters.

Let Multi-Conveyor help you with your next project. Call today: 1-800-236-7960. Multi-Conveyor... your best,

SUCCESS!

Modular "Quick Ship" Conveyors

Benefits of the [Success Series](#) from Multi-Conveyor include very attractive pricing while maintaining superior quality but realizing expedited delivery. [Contact Us](#) and we'll see if our Success Line is the answer to your quick conveyor needs. Or, pick up the phone and call: 1-800-236-7960.

Get Ready For Pack Expo!

It's time to get your Pack Expo floor plan mapped out! You won't have any trouble finding Multi-Conveyor as we are conveniently located right in the front of the South Hall in booth S-3414.

We will have new equipment, new faces to meet, and a brand new display to help with your next conveyor project. We look forward to seeing you there.

Not going to the show? No worries. Visit our website at www.multi-conveyor.com to learn more about our latest innovations. Then, call us at 1-800-236-7960.

Multi-Conveyor... your best, conveyed better.
