Multi-Conveyor

Multi-Conveyor is a leading standard and custom conveyor manufacturer specializing in cheese, dairy and dairy by-products. Our technologies are multiple and solutions unique. Our job is to provide a more functional, affordable conveyor while maximizing productivity or saving essential floor space in the process. Multi-Conveyor’s sanitary constructed, stainless steel conveyor designs are used by leading dairy producers because they know we have a keen understanding of effective, easy-clean (CIP), wash down designs. We build 3A Dairy, USDA Dairy, USDA, WDA and FDA compliant machinery on a regular basis. We stay up to date with ever-changing mandates and check points as each agency dictates for processing and packaging. Using technology driven operator-to-controls communications and functional engineering designs, Multi-Conveyor can provide faster, more efficient changeovers to feed various container shapes or sizes, which equals increased throughput to you. Give us a shot.
