Your best...conveyed better.

Accumulation Conveyor Solutions

Accumulating conveyors are available in a wide variety of designs that allow for product recirculation, reversing or bi-directional product flow, horizontal or vertical orientations, and single file or mass flows of product. When there is an interruption in the downstream production process the accumulation conveyors absorb the products from the continuing upstream production to help maintain the efficiency of the line and to keep the upstream unit operations isolated from the stops and starts that may cause reduced quality or performance. When the downstream equipment is again ready to receive product the Accumulation Conveyors readily deliver the accumulated product along with the continuing new production. Some types are available in First-In / First-Out designs for time-critical or sequential downstream delivery.

Reflow

Alpine

Bi-Directional

Accumulation Conveyor Designs include:

- Alpines - incline/decline elevation changes in a small footprint saving floor space, inline or offline accumulation
- Bi-Directional - line sensors regulate the flow of product onto and off of the reversing table
- Vertical - Indexing flights lift multiple cartons or cases vertically, then reverse to unload
- Rotaries & Reflow Tables - cost effective in-line or off-line surge, accumulation and unscrambling
- Serpentine Systems - lane to lane transfer for high speed product accumulation
- Spirals - elevate and accumulate or use for dwell time, cooler or proofer
- Sanitary, food & pharmaceutical agency compliance levels available
- Custom Designs - tell us what you need ... we make it happen
- Stainless steel or painted mild steel construction

Multi-Conveyor LLC

Your best...conveyed better.

Let's get working on your next project.

Since 1989, Multi-Conveyor has been supplying standard and custom conveyors to nearly every industry. Whether your project is \$3,000 or \$3 Million, Multi-Conveyor has solutions. When you work with Multi-Conveyor, you work with a team of experts. A Project Manager is assigned to each individual customer and each job to ensure a quick response. Multi-Conveyor is committed to minimal lead times to meet our customer's required due dates.

Here's a list of systems and devices that Multi-Conveyor builds on a regular basis:

Accumulation Conveyors	Multi-Flex Chain Conveyors
Alpine Accumulation Conveyors	Package or Roll Upenders
ARB (Activated Roller Belt™) Conveyors	Package Turning Devices
Auto-Indexers	Pallet Forming Conveyors for Robotic Palletizers
Belt Conveyors: Fabric, Homogenous, Positive Drive	Pneumatic Devices: Clamps, Stops, Gates, Retracts, Rails
Bi-Directional & Uni-Directional Accumulation Tables	Pre-Engineered Standard "Quick Ship" Conveyors
Case Packaging / Case Load Conveyors or Stations	Product Orientation: Rotate, Turn, Flip
Case Upenders	Product Turners
Chain Driven Conveyors	Retractable Nose Conveyors
Custom Designs and Specialty Systems	Right-Angle Pushers and Sweeps
Electrical Control Panels (UL Listed)	Rotary Tables: Accumulators / Unscramblers
Electrical Control Systems and Programming	Sanitary, Hygienic Design and Construction:
Friction Belt Conveyors	- FDA Compliant Designs and Construction
Gripper Conveyors: All Configurations	- 3A Dairy Designs and Construction
Hand-Pack Stations	Servo and Pneumatic Diverters and Combiners
High-Speed Servo Driven Divert Gate Assemblies	Side Grip Elevators and Lowerators
Hydraulic Devices	Single Filing Conveyors
Incline Conveyors	Slim-Fit™ Small Transfer Conveyor Systems
Incline Product Elevators	Spiral Drum Conveyors & Accumulation
Indexing Conveyors	Stackers
Indexing Elevators and Lowerators	Stainless Steel Construction
Integrated Roller Belt (ModSort) Conveyors	Starwheels
Lane Balancers	Steel Chain Conveyors
Lifts & Lift Gates	Success Line: Basic, Economical, General Transport
Mat-Top / Modular Plastic Belt Conveyors	Table-Top Chain Conveyors
Metal Detection Integration	Upenders: Helix (Twist) and Powered Arm
Mild Steel Painted Construction	Vacuum Conveyors
Modular Conveyor Systems	Vertical Accumulators
MDR - Motor Driven Roller: Stainless, Wash Down)	Wire Belt & Wire Mesh Conveyors

Take the Multi-Conveyor Challenge

Even if your satisfied with your existing conveyor supplier, give us a shot. Chances are we've already conceived, designed, engineered and built a system just like the one you're looking for right now ... or, made one pretty damn close.
